ABSTRACT

ADRIAN LUKMAN DERIANTO 8323145397. Analysis of the Implementation of Sharia Governance Case Study on Islamic Bank X. DIII Accounting Study Program. Faculty of Economics, Jakarta State University. 2019

This scientific work is motivated by the fact that there are still customers who think the operational system of Islamic banks is the same as conventional banks. Based on the results of questionnaires and interviews conducted. The research method used is a qualitative descriptive method by measuring the Likert scale for the results of the questionnaire.

The results of the study show that the implementation of the implementation of sharia governance in Bank Syariah X has been well implemented, the two instruments are very well implemented and the four instruments are well implemented
Keywords:

Islamic banks, Islamic compliance
