

CHAPTER III

METHODOLOGY

3.1 Research Method

This study will use descriptive analytical study method as the research design. Ratna (2004) defining the descriptive analytical study is a study which describing the facts and followed by doing analysis based on the facts. It is not only describing and analyzing the facts but also giving sufficient understanding and explanation. By using this method, the writer will describing and analyzing the portrayal of oppression in J.K. Rowling's *Harry Potter and the Sorcerer's Stone* and *Harry Potter and The Chamber of Secret*.

3.2 Source of Data

The data source of this study is J.K. Rowling's *Harry Potter and the Sorcerer's Stone* and *Harry Potter and The Chamber of Secret* novels.

3.3 Data

The data of this study will be every single narration which indicate oppression toward six character in J.K. Rowling's *Harry Potter and the Sorcerer's Stone* and *Harry Potter*

and The Chamber of Secret novel which are Harry Potter, Ron Weasley, Hermione Granger, Rebeus Hagrid, Firenze, and Dobby.

3.4 Data Collecting Procedures

Data collection procedures are the way the writer collects the data to be analyzed. There are some procedural steps in collecting the data, which are:

1. Read the novel several times carefully and thoroughly.
2. Find and put a highlight on the narration which indicate oppression toward the character in the novels.

3.5 Data Analysis Procedures

1. Classifying the act of oppression of the data using Iris Young's Drawing Five face of oppression to find out how oppression portrayed by J.K Rowling in Rowling's *Harry Potter and the Sorcerer's Stone* and *Harry Potter and The Chamber of Secret* novel.

| Page | Narration | Exploitation | Marginalization | Powerlessness | Cultural Dominance | Violence |
|------|-----------|--------------|-----------------|---------------|-----------------------|----------|
| | | | | | | |

2. Draw a conclusion.
