

## **CHAPTER V**

### **CONCLUSIONS AND SUGGESTION**

This chapter reports the research conclusions and suggestion. The chapter elaboration presented below.

#### **5.1 Conclusions**

The main goal is to analyze the needs of the fourth grader students in SD Islam Al-Azhar 19 Pulo Gebang on supplementary reading material. The research finding revealed the needs which have to cover on supplementary reading materials. The result was obtained by analyzing the students' needs through the existing materials, interview and questionnaire. The result of the data analysis revealed the several gaps which helped the researcher in determining the students' need. The result of the students need was the convergence data which typically analyzes each source of data separately and compares the conclusion of the research the data. The data are complement to each other. After the researcher taking all of the result of the data, the researcher can see the exact needs of the students on supplementary reading materials.

#### **5.3 Suggestions**

The researcher suggests this research should be continue into the further research in order to design the supplementary reading material based on the students' needs.
