**ABSTRACT**

*The purpose of this research was to describe how utilization of setting as a learning resources in thematic learning, which includes the preparation, implementation, and follow up. This research was not intended to test a hypothesis, but only to describe what it is about symptom, variables, or condition. This research is a qualitative research with the survey approach. The population of this research are all student at SDN Bintara II Bekasi Barat. Samples were taken by using purposive sampling technique. Instrument and guidelines used in this research are questionnaires, interviews, and observation. Data obtained are described in a percentage and narrative analysis. The results of this research indicate students and teachers have taken advantage of setting as a source of learning. Utilization of setting as learning resources should be optimized further by making use of the correct procedure, in order to improve student learning outcomes and learning goals.*
