

**ANALYSIS OF GOAL UNIVERSITAS NEGERI JAKARTA
SOCCER CLUB ON STUDENTS LEAGUE, FOOTBALL
REGIONALLY AND NATIONAL 2019.**

ABSTRACT

This research was conducted in Jakarta, the data collection from Universitas Muhammadiyah Jakarta (UMJ) on September 2019. Goal creation in a football became a goal in the game. Goals not only come from the goalkeeper mistake, the other factors such as the anticipatory error from the defender, lack of defensive tactics, even the other small mistakes such as error in passing and stopping the ball arising from each player, can cause that goal creation. Good technique and good defensive tactics will minimize the goals opportunity of the opponent, Open Play goal and Set Piece will be analyzed in this research. Method used in this research is descriptive with analysis technique. The population of this research is Universitas Negeri Jakarta football team in Student League 2019. Sample of this research is goal scored by Universitas Negeri Jakarta football team. The result is the conceded goal through the Open play process amounted to 7 goals with a percentage of 70%, and the conceded goal through the Set Piece process amounted to 3 goals with a percentage of 30%. Entered goals through the process of Open play amounted to 19 goals with a percentage of 70%, and entered goals through the Set Piece process amounted to 8 goals with a percentage of 30%.
