

ACKNOWLEDGEMENT

Praise be to Allah SWT, the Almighty and the Merciful. It is only by the grace of Allah, the writer has finally finished writing this thesis. This study has been completed with the help and support of many persons. Therefore, an acknowledgement as the appreciation toward those contributions is a must, at least, it is expressed through the words. First and foremost, I would like to express my sincerest honor and gratitude to my advisors: Dr. Darmahusni, M.A., as the first advisor and Dr. Muchlas Suseno, M.Pd. as the second advisor who shaped me on the path toward being an independent researcher. Thank you for the guidance, motivation, advices, suggestions, and support during the time I was conducting the research. I would also like to thank all lecturers of State University of Jakarta who have shared their knowledge and experience. To all administration staffs, especially Mas Yusuf also for providing the kind help in administration matter.

My sincere gratitude is also addressed to my colleague at School of Applied Science, Telkom University, who support and encourage me to finish my study . Next, I would like to send my deep gratitude to all students of Class MI3904 and MI3905, Informatics Management Study Program at School of Applied Science, Telkom University, who have contributed to this successful study. In addition, my deep gratitude was sent to some students from Class MI3903, MI3904, and MI3905, who were willing to join my writing project as the pilot study of this reseach.

Grateful thanks to my beloved parents, Mom and Dad, who always support me with their advice, care, understanding, and never-ending pray whenever I felt down. Especially, my mom, thank you for always encouraging me when I was recovering from my disease.

Finally, I also thank to all people who have helped me accomplishing this thesis. I realize that this thesis is far from being perfect. Hopefully this thesis can give contribution to the development of English language teaching and learning.

Bandung, Agustus 2018
