

## ***HIGH SCHOOL VOLLEYBALL CURRICULUM IN SAOUTH TANGERANG***

### ***ABSTRACT***

*This study describes the curriculum volleyball in senior high school. In South Tangerang school that haven't curriculum specifically for volleyball as a learning guide, researcher have created or designed a volleyball curriculum for senior high schools with the goal of assisting teachers for learning process. The learning curriculum for volleyball includes a variety of volleyball fundamentals, such as content competence, basic competencies, indicators, success, learning strategies, curriculum structure, syllabus, illustrations of lesson implementation plans (RPP), learning materials, and assessment methods. This study used a research and development methodology refer to ADDIE model. ADDIE model research are each more straightforward and in-depth. A volleyball curriculum that has been examined by three professionals and found to be "very feasible so that it can be used by teachers and coaches" is included in this study.*
