ABSTRACT

Alvin Harya Putra. 2023. *The Dimensions of Creativity and Critical Thinking Stimulated in Digital English Learning Media of Vocational High School.* A thesis. Jakarta: English Language Education Study Program, Faculty of Languages and Arts, Universitas Negeri Jakarta, July 2023.

Creativity and critical thinking are two out of six dimensions of *Profil Pelajar Pancasila* as an effort to achieve quality human resources. This study aims to investigate the indicators of creativity and critical thinking skills stimulated in digital English learning media of vocational high schools. This study focuses on the use of digital English learning media on the materials for the tenth grades of three vocational high schools located in Jakarta. This qualitative study employs a survey. The findings indicate that all digital English learning media used by teachers are oriented toward developing students' creativity and critical thinking skills. Indicators of the dimensions of creativity, sorted from the biggest percentage of stimulation, are *Fluency, Elaboration, Flexibility, and Originality*. Indicators of the dimensions of critical thinking, sorted from the biggest percentage of stimulation, are *Building Basic Skills, Setting the Strategies and Tactics, Summing Up, Giving Simple Explanations, and Providing Further Explanations*.

Keywords: *creativity; critical thinking; digital English learning media; survey; vocational high school*

ACKNOWLEDGEMENT

All the highest and deepest gratitude goes to Allah SWT, God Almighty, for the blessings of health that have been given, for the blessings of convenience that have been bestowed, and for the blessings of guidance that have been endured, thus allowing me to complete this undergraduate thesis. *Sholawat* is devoted to the greatest role model for Muslims, a human being with extraordinary privileges and examples, Rasulullah SAW (may peace be upon him). During my study, many people were involved in giving me mental support, advice, and motivation, so on this precious occasion, I would like to express my gratitude and appreciation to each of them.

My deepest gratitude and appreciation goes to my beloved family: my mother, grandparents, and younger sister. My mother is the main character behind all the achievements I have had so far. She is my greatest strength. She is always present in times of joy and sorrow. So did my grandparents, two people who also sincerely cared for me, motivating and advising me not to take a wrong step. My younger sister, someone who always brings joy, comes to give color to life. His persistence in achieving something has inspired me to always be strong in the face of all obstacles.

Then, my deepest gratitude and appreciation go to my first and second supervisors. Thanks to Dr. Hanip Pujiati who has patiently guided me and supervised the progress of my thesis writing. Thanks to Imas Wahyu Agustina, M.Pd. who also provided helpful advice, guidance, and corrections. I also want to thank all the lecturers and staff of the English Language Education Study Program

at Universitas Negeri Jakarta for all their efforts and support in facilitating my self-development so far.

Last but not, indeed, least, all my friends in 19 DA. Thank you for transmitting happiness and enthusiasm for eight semesters. Of course, if there was no Covid-19 pandemic, we would have many more sweet memories. However, we must remain grateful because we managed to fight through it. I hope we can get together again in another opportunity to make up for our hindered moments together.

As a closing statement, I would like to once again thank everyone who directly or indirectly contributed to the realization of this undergraduate thesis process. This study is far from perfect but I hope it will be of use to anyone who reads it. Constructive criticism and suggestions are very welcome and appreciated.
