LEMBAR PENGESAHAN .................................................................................................i
ABSTRAK ..........................................................................................................................iii
SURAT PERNYATAAN KEASLIAN SKRIPSI ....................................................................v
KATA PENGANTAR .............................................................................................................vi
DAFTAR ISI .........................................................................................................................ix
DAFTAR TABEL .......................................................................................................................xii
DAFTAR GRAFIK ....................................................................................................................xiii
DAFTAR LAMPIRAN ..............................................................................................................vi

BAB I PENDAHULUAN .........................................................................................................1
A. Latar Belakang Masalah .................................................................................................1
B. Identifikasi Masalah ........................................................................................................7
C. Pembatasan Masalah ......................................................................................................7
D. Perumusan Masalah ........................................................................................................9
E. Kegunaan Hasil Penelitian ............................................................................................9
1. Secara Teoritis ..............................................................................................................9
2. Secara Praktis ..............................................................................................................9

BAB II KAJIAN TEORETIK ................................................................................................11
A. Deskripsi Teoretik ..........................................................................................................11
1. Hakikat Keterampilan Motorik Halus ........................................................................11
   a. Keterampilan Motorik Halus ..................................................................................11
   b. Aspek Keterampilan Motorik Halus ....................................................................18
   c. Faktor-faktor Yang Mempengaruhi Keterampilan Motorik Halus ....................19
   d. Manfaat Keterampilan Motorik Halus ................................................................22
   e. Pengembangan Keterampilan Motorik Halus .......................................................26
   f. Karakteristik Keterampilan Motorik Halus ...........................................................28
2. Hakikat Mozaik Tiga Dimensi ....................................................................................33
   a. Pengertian Mozaik ...............................................................................................33
   b. Mozaik Tiga Dimensi ..........................................................................................36
   c. Manfaat Mozaik Tiga Dimensi ..........................................................................39
   d. Alat dan Bahan Yang Digunakan Dalam Kegiatan MozaikTiga Dimensi ...........41
   e. Langkah-Langkah Kegiatan Mozaik Tiga Dimensi .............................................44
BAB III METODOLOGI PENELITIAN .......................................................... 53
A. Tujuan Penelitian ........................................................................ 53
B. Tempat Dan Waktu Penelitian ..................................................... 53
  1. Tempat Penelitian ................................................................ 53
  2. Waktu Penelitian ................................................................ 53
C. Metode dan Desain Penelitian .................................................. 54
  1. Metode Penelitian ................................................................ 54
  2. Desain Penelitian ................................................................ 55
  3. Perlakuan ............................................................................. 56
D. Teknik Pengambilan Sampel ....................................................... 59
  1. Populasi dan Sampel ........................................................... 59
  2. Teknik Pengambilan Sampel .................................................. 60
E. Teknik Pengumpulan Data .......................................................... 60
  1. Variabel Penelitian ............................................................. 60
    a. Definisi konseptual ....................................................... 61
    b. Definisi operasional ....................................................... 62
F. Instrumen Penelitian ................................................................. 62
  1. Uji Coba Instrumen ........................................................... 65
    a. Pengujian Validitas ....................................................... 66
    b. Perhitungan Reliabilitas ................................................ 67
G. Teknik Analisis Data ................................................................. 69
  1. Statistik Deskriptif ............................................................. 69
  2. Statistik Inferensial ........................................................... 70
    a. Uji Normalitas ........................................................... 70
    b. Uji Homogenitas ......................................................... 71
    c. Uji Hipotesis ............................................................. 72
H. Hipotesis Statistik ...................................................................... 73

BAB IV HASIL PENELITIAN DAN PEMBAHASAN .............................. 74
A. Deskripsi Data Hasil Penelitian ................................................ 74
  1. Data Hasil Perhitungan Keterampilan Motorik Halus
     Anak Usia 3-4 Tahun Sebelum Diberi Perlakuan (Pre Test)
     Dengan Penggunaan Mozaik Tiga Dimensi ............................ 75
2. Data Hasil Perhitungan Keterampilan Motorik Halus Anak Usia 3-4 Tahun Setelah Diberi Perlakuan (Post Test) Dengan Penggunaan Moaik Tiga Dimensi .................................. 77

B. Pengujian Persyaratan Analisis Data .......................................................... 80
   1. Uji Normalitas ......................................................................................... 80
      a. Uji Normalitas Pre Test Pada Keterampilan Motorik Halus Anak Usia 3-4 Tahun .......................................................... 80
      b. Uji Normalitas Post Test Pada Keterampilan Motorik Halus Anak Usia 3-4 Tahun .............................................................. 81
   2. Uji Homogenitas ..................................................................................... 82

C. Pengujian Hipotesis Penelitian ................................................................. 83

D. Pembasahan Hasil Penelitian ................................................................. 84

E. Keterbatasan Penelitian .......................................................................... 90

BAB V KESIMPULAN, IMPLIKASI, DAN SARAN ........................................ 91
   A. KESIMPULAN ......................................................................................... 91
   B. IMPLIKASI .......................................................................................... 93
   C. SARAN ................................................................................................. 95
