

**DEVELOPMENT OF VIDEO DOCUMENTER ABOUT ROLE MODEL THAT
HAVE EMPLOYABILITY SKILLS FOR STUDENTS OF XII IPS CLASS
AT 14 STATE HIGH SCHOOL JAKARTA**

ABSTRACT

The purpose of this study to develop documentary video about role models that have employability skills for students of class XII IPS at 14 State High School Jakarta. The population in this study are 72 students. The sampling technique is saturated sampling with a sample of 72 students. The research method is research and development (R&D) method using the ADDIE model (Analyze, Design, Development, Implementation, and Evaluation). The stages are analysis, design, and development. The documentary video contains information about definitions, characteristics of individuals who have these skills, and urgency of these skills in the career world in self-management, communication, leadership, emotional intelligence, teamwork, courage to try, career awareness, problem solving skills, manage technology and information skills, and mathematical skills. Product assessment is carried out by a validator consisting of media experts, material experts, and students. Based on media assessment, the results of the media validity test are feasible (81,25%). Based on material assessment, the results of the material validity test are feasible (77,56%). Based on student assessment, the results are feasible (71,25%).

Keywords : Development, research and development, ADDIE model, video, career, employability skills.
